Smart Key

With **H-Smart** Technology

The world is now used to a 'Smart' way of living. We all lead a life with an assured sense of convenience. So, why shouldn't everything about your ride be smart too?

Introducing our new Honda Smart Key with H-Smart Technology. It comes with several features that will transform your experience of using an Activa – right from the moment you unlock it.

Now, there's only one word for this amazing key – Smart, like there's only one word for scooter – Activa!

all features

SmartSAFE

We've ensured that your Activa is always secure, even if it is not in sight. With the **Anti-Theft System**, you don't have to think twice about locking your ride, the Smart Key takes control over the protection of your scooter by activating the Immobilizer function when the Smart Key goes beyond the **2 meter range of your Activa**.

Smart FIND

It's a hassle when one has to go looking for their ride in a parking lot or a crowded place among an array of other two-wheelers, or even in low-light conditions. With the Smart Key, this trouble is taken care of. All you have to do is, click on the **Answer Back Button** on your key, and all the four winkers of your Aactiva will blink twice. It can be easily located even if it is as far as **10 meters!**

Smart UNLOCK

Your two-wheeler key isn't always handy, but with Honda Smart Key, you won't need the key in hand. When the Smart Key is within the **2 meter range** of Aactiva, you push and rotate the knob to perform various operation like your **seat, fuel cap and handle** can all be unlocked just like that.

SmartSTART

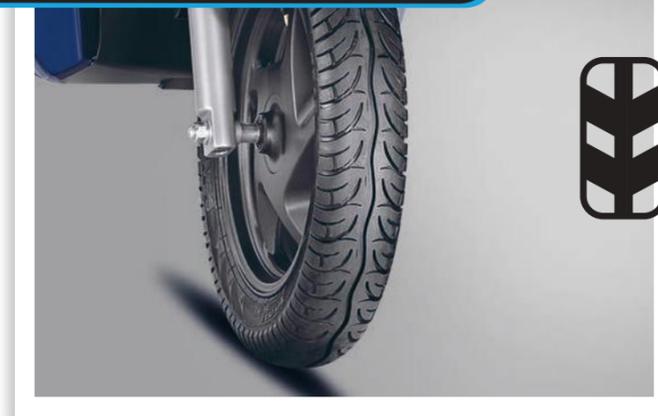

Here's a way to start your ride that doesn't even require you to take out the key from your pocket! Once the key is within **2 meters** of your Activa, and activated, all you have to do is **push the knob** – the LED Smart Key indicator on the speedometer will come on – then just rotate the knob to **turn on the ignition and start the engine with Start/Stop switch.**

ALLOY WHEELS

With every rotation, these wheels make a statement that is **strong yet stylish.**

FUEL EFFICIENT TYRES

Honda has developed a new **Tyre Compound Technology** that greatly **reduces rolling resistance** by maintaining the road grip. The tyres are **tubeless**, so there's no immediate deflation in case of a puncture.
